The Cayman Islands' 2021 Census of Population and Housing Report

July 2022

Information on hand

About Us

The Economics and Statistics Office (ESO) is a department of the Ministry of Finance and Economic Development, Government of the Cayman Islands and is made up of two technically independent units:

- The **Statistics Section** is responsible for producing the country's official national statistics and providing statistical assistance to government organizations. It liaises with international and regional bodies on statistical matters. Its statistical operations are governed by the Statistics Act (2016 Revision); and
- The **Economics Section** is responsible for generating the official macroeconomic forecasts mandated in the Public Management and Financial Act, and the requisite macroeconomic modelling, monitoring, analysis, reporting, and research. It also provides research and other technical assistance to local and international agencies.

ESO produces four (4) broad types of goods and services:

- Publication of statistical reports and conduct of statistical services;
- Monitoring and reporting on the economy;
- Advice on capital investments and general information; and
- Policy and technical advice on economic and statistics matters.

The Statistics Section publishes reports and conducts statistical services in accordance with the Statistics Act of the Cayman Islands and internationally accepted standards.

- Population and housing census;
- Labour force survey, occupational wage survey and household budget surveys;
- Consumer price index (CPI) surveys;
- Overseas trade and balance of payments;
- Gross domestic product and other system of national accounts (SNA); and
- Compendium of statistics compiled from various sources.

FOREWORD

I have long believed, and often said, that our people are the single most significant economic asset of the Cayman Islands. As Deputy Premier and Minister of Finance & Economic Development, my overriding mission is to best ensure that all of our people have access to opportunities that will allow them to develop their full potential and live their best lives.

But, we cannot determine how best to develop for a brighter future when we do not know where we are in the present. I have often stressed the importance of using accurate data to guide policy. Population trends and quality of life indicators are both vital when planning new initiatives and determining the success of those that are ongoing. It is this information that guides the provision of myriad human services, including education and healthcare, as well as the development of our Islands' infrastructure including roads, telecommunications networks and more.

Given my belief in the importance of accurate data as the foundation of public policy, I am very pleased to have the results of the 2021 Census publicised and presented in this report.

The 2021 Census of Population and Housing of the Cayman Islands, taken in October 2021, collected residents' socio-economic, demographic, and housing data. The demographic information, along with new subject areas such as disability, crime, agriculture, fishing and food security, gives a comprehensive picture of the country's population, its changing trends and structure as of that time.

The 2021 Census data serves as a critical forward planning tool. It allows the country to benchmark our performance as a society and measure how we meet the aspirations of residents. It is an invaluable information source for dialogue between government, the private sector and the broader civil society. Our collective aim moving forward is to address the challenges posed by the data in this report and formulate socioeconomic policies using the empirical evidence.

I urge all residents to take the time and read this comprehensive report. It will serve as the foundation for evidence-based policy at the Government level, and is indeed vital to decision-making at every level of society, including investment and business decisions.

In keeping with the 2021 Census theme "Everyone Counts", the Government will use this 2021 Census Report as our key reference while we work to continue the economic prosperity and social harmony our beloved Cayman Islands have long enjoyed, for the present and future generations.

Hon. Christopher Saunders
Minister of Finance and Economic Development

July 2022

CENSUS 2021 MANAGEMENT TEAM

ACKNOWLEDGEMENT

Many institutions and individuals contributed in various ways to the success of the 2021 Census. The Economics and Statistics Office wishes to thank the following:

- The Caribbean Community (CARICOM) Technical Secretariat for Statistics and United Nations Population Fund (UNFPA) for providing training.
- Our countless individuals and businesses who served as publicity volunteers or contributors, including:
 - Centenarian Mr Wellesley Howell;
 - Young Caymanian Leadership Recipient Ms Staci Scott;
 - Miss Teen Cayman Islands Miss Jada Bodden;
 - George Town Primary School Students;
 - Layman E Scott Senior High School Students;
 - District Commissioner Mr Ernie Scott;
 - Commercial Banks, Supermarkets, Churches, other private businesses and;
 - Census Influencers (Billboards, Fliers, Social Media Personalities).
- The Census Advisory Committee comprising of senior representatives from the following key agencies:
 - Cabinet Office;
 - Department of Children and & Family Services;
 - Lands & Survey Department;
 - Planning Department;
 - District Commissioner's Office;
 - Government Information Services;
 - Ministry of Education;
 - Ministries of District Administration and Lands;
 - Ministry of Finance and Economic Development;
 - Ministry of Border Control and Labour;
 - Ministry of Health and Wellness;
 - National Council for Persons with Disability;
 - National Roads Authority and;
 - Chamber of Commerce.
- The following agencies provided invaluable technical support:
 - Lands & Survey Department;
 - Planning Department;
 - Government Information Services;
 - Legal Drafting Department; and
 - District Commissioner's Office.
- The approximately 436 field staff, comprising enumerators, field supervisors, IT Staff and area/district coordinators. This is in addition to 6 support staff of the ESO.

Most importantly, the greatest of thanks is extended to the people of the Cayman Islands for participating and providing the required information.

TABLE OF CONTENTS

1. HIGHLIGHTS 2

1.1 Total population and trends..... 2

1.2 Population structure by district, status and sex..... 10

1.3 Illness, disability and health insurance..... 23

1.4 Education..... 28

1.5 Marital and union status..... 35

1.6 Fertility..... 37

1.7 Employment..... 39

1.8 Household and housing characteristics..... 50

1.9 Mortality..... 59

1.10 Emigration..... 59

1.11 Crime..... 61

1.12 Agriculture and fishing activity and food security 63

2. ADMINISTRATIVE BACKGROUND 65

2.1 Legal mandate and history 65

2.2 Census objectives..... 66

2.3 Basic approach..... 67

2.4 Preparation and consultation process 68

2.5 Fieldwork and data processing..... 69

2.6 Census expenditure 70

3. KEY DEFINITIONS, CONCEPTS AND EXPLANATORY NOTES 71

3.1 Key definitions and concepts..... 71

3.2 Explanatory notes to the census tables..... 75

4. DEMOGRAPHY TABLES..... 80

5. ILLNESS, DISABILITY AND HEALTH INSURANCE TABLES..... 138

6. EDUCATIONAL ATTAINMENT TABLES..... 172

7. MARITAL AND UNION STATUS TABLES 216

8. FERTILITY TABLES..... 234

9. EMPLOYMENT TABLES..... 242

10. HOUSEHOLD AND HOUSING CHARACTERISTICS TABLES..... 276

11. MORTALITY TABLES..... 308

12. EMIGRATION TABLES 314

13. CRIME TABLES 318

14. AGRICULTURE AND FISHING ACTIVITY AND FOOD SECURITY TABLES 328

1. HIGHLIGHTS

1.1 TOTAL POPULATION AND TRENDS

TOTAL COUNT AND GROWTH OVER CENSUS YEARS

This report is based on the Cayman Islands' 2021 Census of Population and Housing, conducted from 10th October 2021 to 25th January 2022. There were 29,699 households whose members were recorded as residents of the Cayman Islands on Census Day (10th October 2021). As of "Census Day", these persons stayed or intended to remain in the Cayman Islands for at least six months consecutively. This type of census is also called a *de jure* Census or usual resident population count, which makes the 2021 Census comparable to the country's previous censuses.

There were 71,432 residents of the Cayman Islands counted in the 2021 Census. This figure includes 327 persons who lived in institutions (prisons, dorms, retirement homes, etc.), denoted as the institutional population¹ (see Figure 1.1A).

Figure 1.1A: Census 2021 Population

¹ Persons were counted in the institutional population if they were living in an institution on Census Day and living there for at least six months or will remain in the institution for six months or more. Otherwise, they were counted at their usual place of residence.

As depicted in Figure 1.1A, the non-institutional population comprised the census survey tabular population count (68,811) and the census non-response estimate (2,294). The non-response estimate was derived from household refusals and verified no contacts, which were summed and weighted by the district tabular population distribution.

Figure 1.1B: Non-Institutional Population Count, 1802-2021

The 2021 non-institutional population (otherwise referred to as the "total population") count is approximately 13.5 times the total population of the Cayman Islands that was taken a century ago (1921 Census).

Figure 1.1C: Non-Institutional Population Count and Growth Rate

The total population represents a 29.2 percent increase over the 2010 Census count. This decadal growth rate (29.2%) and its implied average annual growth rate (2.4%) were the lowest since the 1979 Census, when the implied growth was 5.8 percent (see Figure 1.1C).

1.1.2 POPULATION COUNT AND GROWTH BY DISTRICT

Except for the Sister Islands, all districts recorded double-digit growth rates in the 2021 Census relative to the 2010 Census.

In the districts of Bodden Town, West Bay, and East End, the intercensal growth was higher than the national average of 29.2 percent. Compared to previous censuses, George Town, Bodden Town, North Side and the Sister Islands' growth was slower than in 2010. In contrast, East End growth rate increased sharply, with West Bay marginally higher.

Relative to 2010, the 2021 Census growth rates of George Town were 24.3 percent, West Bay 36.6 percent, Bodden Town 40.8 percent, North Side 28.6 percent, East End 31.2 percent and the Sister Islands declined by 1.7 percent (see Figure 1.1D).

Table 1.1D: Census Population by District, 1970-2021

Census Years	1970	1979	1989	1999	2010	2021
Cayman Islands	10,068	16,677	25,355	39,020	55,036	71,105
George Town	3,812	7,617	12,921	20,626	28,089	34,921
West Bay	2,720	3,947	5,632	8,243	11,222	15,335
Bodden Town	976	1,594	3,407	5,764	10,543	14,845
North Side	515	1,083	857	1,079	1,479	1,902
East End	736	759	1,064	1,371	1,407	1,846
Sister Islands	1,309	1,677	1,474	1,937	2,296	2,257
Growth in Percent (%)						
Cayman Islands	18.3	65.6	52.0	53.9	41.0	29.2
George Town	40.9	99.8	69.6	59.6	36.2	24.3
West Bay	14.8	45.1	42.7	46.4	36.1	36.6
Bodden Town	19.2	63.3	113.7	69.2	82.9	40.8
North Side	10.3	110.3	-20.9	25.9	37.1	28.6
East End	10.8	3.1	40.2	28.9	2.6	31.2
Sister Islands	-11.9	28.1	-12.1	31.4	18.5	-1.7

1.1.3 POPULATION DISTRIBUTION AND TRENDS BY DISTRICT

Growth in the population precipitated changes across the districts over time; the most significant is that Bodden Town is approximately the same size as West Bay, and the share of the Sister Islands has consistently dwindled since 1970.

Figure 1.1E: Population Distribution by Districts, Percent

In proportion to the total population in 2021, Bodden Town and West Bay were higher by 1.7 and 1.2 percentage points, respectively, relative to 2010. George Town's 2021 population

share was lower than 50 percent for the first time since 1979, while North Side and East End shares remained constant compared to 2010 (see Figure 1.E).

Despite George Town maintaining the largest share of the population, the relative share declined from 51.0 percent in 2010 to 49.1 percent in 2021. The Sister Islands moved downwards from a share of 4.2 percent in the 2010 Census to 3.2 percent in the 2021 Census.

1.1.4 POPULATION COUNT, GROWTH AND DISTRIBUTION TREND BY STATUS

As displayed in Table 1.1F, the population in 2021 comprised 38,047 Caymanians and 33,058 Non-Caymanians². The Non-Caymanian total includes 6,378 Permanent Resident holders.

Table 1.1F: Population Count and Growth and Status 1979-2021

	Census Population	% Change	Caymanian	% Change	Non-Caymanian	% Change
1979	16,677		13,457		3,210	
1989	25,355	52.0	16,968	26.1	8,387	161.3
1999	39,020	53.9	20,491	20.8	18,453	120.0
2010	55,036	41.0	30,979	51.2	24,057	30.4
2021	71,105	29.2	38,047	22.8	33,058	37.4

The population expansion between 2010 and 2021 was due to increases in the Caymanian and Non-Caymanian populations. There were 7,068 more Caymanians, or 22.8 percent, compared to 9,001 more Non-Caymanians or an increase of 37.4 percent. In other words, there were 115 Caymanians in the population for every 100 Non-Caymanians (see Table 1.1F).

Figure 1.1G: Percent Distribution of Population by Status, Census Years 1979-2021

The percentage did not add to 100.0% in 1979 and 1999 due to Don't Know /Not Stated.

² Non-Caymanians count include Permanent Residents.

The relative share of Caymanians in the 2021 population is 53.5 percent relative to 1979 when it was at 80.7 percent and 56.3 percent in 2010. On the other hand, the Non-Caymanian relative share of the population in 2021 recovered to 46.5 percent, slighter higher than in 2010 but lower than in 1999 (see Table 1.1G).

1.1.5 POPULATION GROWTH BY STATUS, SEX AND DISTRICT

The overall increase in Non-Caymanians relative to Caymanians in 2021 was reflected in the district's population growth. This shows that in George Town, the increase in Non-Caymanians (4,627) more than doubled the increase in Caymanians (2,205) (see Table 1.1H).

Table 1.1H.1: Population Growth by Status and District

	Total Population				Caymanian				Non-Caymanian			
	2010	2021	Change		2010	2021	Change		2010	2021	Change	
	#	#	#	%	#	#	#	%	#	#	#	%
Cayman Islands	55,036	71,105	16,069	29.2	30,979	38,047	7,068	22.8	24,057	33,058	9,001	37.4
George Town	28,089	34,921	6,832	24.3	12,572	14,777	2,205	17.5	15,517	20,144	4,627	29.8
West Bay	11,222	15,335	4,113	36.6	7,098	8,744	1,646	23.2	4,124	6,591	2,467	59.8
Bodden Town	10,543	14,845	4,302	40.8	7,634	10,632	2,998	39.3	2,909	4,213	1,304	44.8
North Side	1,479	1,902	423	28.6	1,114	1,308	194	17.4	365	594	229	62.6
East End	1,407	1,846	439	31.2	1,058	1,134	76	7.2	349	712	363	104.0
Sister Islands	2,296	2,257	(39)	(1.7)	1,504	1,452	(52)	(3.4)	792	805	13	1.6
Cayman Brac	2,099	2,075	(24)	(1.1)	1,447	1,398	(49)	(3.4)	652	677	25	3.8
Little Cayman	197	182	(15)	(7.8)	57	54	(3)	(5.2)	140	128	(12)	(8.8)

All the districts had a higher percentage increase in Non-Caymanians than Caymanians. Among the districts, East End, North Side and West Bay recorded the highest percentage increase in Non-Caymanians.

Table 1.1H.2: Population Growth by Sex and District

	Total Population				Male				Female			
	2010	2021	Change		2010	2021	Change		2010	2021	Change	
	#	#	#	%	#	#	#	%	#	#	#	%
Cayman Islands	55,036	71,105	16,069	29.2	27,219	35,984	8,765	32.2	27,817	35,058	7,241	26.0
George Town	28,089	34,921	6,832	24.3	14,253	18,064	3,811	26.7	13,836	16,815	2,979	21.5
West Bay	11,222	15,335	4,113	36.6	5,492	7,778	2,286	41.6	5,730	7,549	1,819	31.7
Bodden Town	10,543	14,845	4,302	40.8	4,964	7,162	2,198	44.3	5,579	7,674	2,095	37.5
North Side	1,479	1,902	423	28.6	715	956	241	33.7	764	945	181	23.6
East End	1,407	1,846	439	31.2	684	926	242	35.3	723	920	197	27.3
Sister Islands	2,296	2,257	(39)	(1.7)	1,111	1,099	(12)	(1.1)	1,185	1,156	(29)	(2.4)
Cayman Brac	2,099	2,075	(24)	(1.1)	998	984	(14)	(1.4)	1,101	1,089	(12)	(1.1)
Little Cayman	197	182	(15)	(7.8)	113	115	2	1.7	84	67	(17)	(20.6)

Figures may not sum to total due to DK/NS

The population had slightly more males (50.6%) than females (49.3%) (see Table 1.1H.2). This permeated all districts, except Bodden Town and the Sister Islands, where the

proportion of females was slightly higher than males. In Bodden Town, the percentage of females (51.7%) was relatively high compared to the other districts.

1.1.6 COMPARATIVE POPULATION GROWTH AND DISTRIBUTION BY AGE

Between the intercensal years, the highest population growth rates occurred in the 65 and older age groups. This growth was more than three times the national growth rate. Consequently, this group rose in its share of the total population from 5.1 percent in 2010 to 7.9 percent. This age bracket had the highest population growth among the districts except for East End and the Sister Islands.

Table 1.11: Census Population by Age group

Age Group	2010	2021	Change	
	#	#	#	%
Cayman Islands				
Total	55,036	71,105	16,069	29.2
0 - 14	9,968	11,315	1,347	13.5
15 - 29	10,747	12,251	1,504	14.0
30 - 49	23,167	27,291	4,124	17.8
50 - 64	8,168	14,130	5,962	73.0
65 +	2,832	5,602	2,770	97.8
DK/NS	153	515		

The 30 to 49 years age group remains the dominant group with its share of 38.4 percent of the total population, albeit this is lower compared to the 42.1 percent share posted in 2010. Despite the highest overall percentage of the 30 to 49 age group, the age group 50 to 64 accounted for the greatest increase of 5,962 persons in absolute terms (see Table 1.11).

The youngest age group (0 to 14 years) grew slower than the average population growth. Thus, the overall share of the total population slid from 18.1 percent in 2010 to 15.9 percent in 2021. This slowdown was across most districts except George Town and Bodden Town. In East End, this age group declined between 2010 and 2021, while the Sister Islands remained stable.

Age group 50 to 64 had the second-highest growth rates among all age groups nationally and in all districts. The elderly (65+ years) group had the highest growth rate nationally. Only East End and the Sister Islands posted a lower growth rate among the districts (see Table 1.1I).

Comparing growth rates in all districts, Bodden Town recorded the most robust growth rates across most age groups.

Table 1.1J: Population Count by District and Age Group

Age Group	2010 #	2021 #	Change		Age Group	2010 #	2021 #	Change	
			#	%				#	%

1.2 POPULATION STRUCTURE BY DISTRICT, STATUS AND SEX

1.2.1 EXPLANATORY NOTE

The results presented in most tables in this section up to Section 1.8 and in Chapters 4 to 14 use tabular population counts (68,811), which do not add up to the total non-institutional or headcount population (71,105) presented in Section 1.1. The tabular population counts ONLY persons interviewed fully or partially, directly or indirectly by the head of the household or a responsible adult on behalf of other household members. EXCLUDED are residents who were outright or passive refusals and others who were verified resident but was unavailable to be interviewed. This situation arose for various reasons (e.g. residents away on vacation, passive refusal, etc.).

All figures are rounded to the nearest decimal place. "DK/NS" refer to responses "Don't Know/Not Stated."

1.2.2 POPULATION DISTRIBUTION BY DISTRICT AND STATUS

In 2021, George Town was the biggest district with 49.3 percent of the tabular population, while North Side (2.7%) and East End (2.6%) were the smallest (see Table 1.2A). The districts of West Bay (21.5%) and Bodden Town (20.9%) accounted for almost equal shares of the population count. The Sister Islands (Cayman Brac and Little Cayman) had a combined count of 2,115 persons, or 3.1 percent of the total.

The district of George Town was home to most Non-Caymanians (57.7%) and Caymanians (42.3%). Bodden Town had the highest share of Caymanians (71.6%), while West Bay had more Caymanians (57.0%) than Non-Caymanians (43.0%).

Table 1.2A: Population Distribution by District and Status

District	Total		Status				Status Distribution	
			Caymanian		Non-Caymanian		Caymanian	Non-Caymanian
	#	%	#	%	#	%	%	%
Total	68,811	100.0	36,808	100.0	32,003	100.0	53.5	46.5
George Town	33,898	49.3	14,344	39.0	19,554	61.1	42.3	57.7
West Bay	14,784	21.5	8,430	22.9	6,354	19.9	57.0	43.0
Bodden Town	14,398	20.9	10,311	28.0	4,086	12.8	71.6	28.4
North Side	1,857	2.7	1,277	3.5	580	1.8	68.8	31.2
East End	1,758	2.6	1,080	2.9	678	2.1	61.4	38.6
Sister Islands	2,116	3.1	1,365	3.7	751	2.3	64.5	35.5
Cayman Brac	1,955	2.8	1,317	3.6	638	2.0	67.4	32.6
Little Cayman	161	0.2	48	0.1	113	0.4	29.7	70.3

1.2.3 POPULATION BY DISTRICT AND SEX

The population had slightly more males (50.6%) than females (49.3%) (see Table 1.2B). This permeated all districts, except Bodden Town and the Sister Islands, where the proportion of females was slightly higher than males. In Bodden Town, the percentage of females (51.7%) was relatively high compared to the other districts.

Table 1.2B: Population Distribution by District and Sex

	Total		Sex				Sex Distribution		DK/NS
			Male		Female		Male	Female	
	#	%	#	%	#	%	%	%	#
Cayman Islands	68,811	100.0	34,823	100.0	33,927	100.0	50.6	49.3	61
George Town	33,898	49.3	17,535	50.4	16,322	48.1	51.7	48.2	41
West Bay	14,784	21.5	7,498	21.5	7,278	21.5	50.7	49.2	8
Bodden Town	14,398	20.9	6,946	19.9	7,442	21.9	48.2	51.7	9
North Side	1,857	2.7	934	2.7	922	2.7	50.3	49.7	1
East End	1,758	2.6	882	2.5	877	2.6	50.1	49.9	-
Sister Islands	2,116	3.1	1,028	3.0	1,085	3.2	48.6	51.3	2
Cayman Brac	1,955	2.8	926	2.7	1,026	3.0	47.4	52.5	2
Little Cayman	161	0.2	102	0.3	59	0.2	63.2	36.6	-

George Town accounts for 50.4 percent of the male population, slightly more than the female population. West Bay was 21.5 percent, with slightly more males than females. Bodden Town accounts for 19.9 percent of all males and a higher proportion of 21.9 percent of all females. Except for George Town, Bodden Town and the Sister Islands, the male-to-female distribution across the districts was almost equally distributed.

1.2.4 POPULATION BY AGE GROUP AND SEX

As displayed in Table 1.2C, children 14 years and under totalled 10,953 or 15.9 percent of the total population. There were slightly more males in this age group (5,571) than females (5,355).

The majority of the population was in the working-age group (15+ years old), with 57,360 or 83.4 percent. The number of males and females in this age group is almost even, with males exceeding females by 597 or 0.4 percent. The youth population (15 to 24 years) stood at 6,586 or 9.6 percent of the population.

The elderly (65 years old and above) total 5,414 or 7.9 percent of total residents; also, more females (2,893) were in this group than males (2,519).

The population's median age was 38 for both males and females.

1.2.5 POPULATION BY AGE GROUP AND STATUS

The age distribution of the country's population varies significantly by status. Children (0 to 14 years) account for 20.9 percent of the Caymanian population vis-a-vis 9.8 percent among the Non-Caymanians. The working-age group (15 years and above) proportionate share among Non-Caymanians (88.3%) percent was higher than Caymanians (79.1%). The elderly (65+ years) comprise 12.8 percent of the Caymanians compared to 2.3 percent of the Non-Caymanians.

Table 1.2D: Population by Age Group and Status

Median Age	38		38		38	
Average Age	44		40		49	

A visual presentation of these differences is shown through the population pyramids below, whereby the tender age and the elderly were generally Caymanians, and the working-age/economically active ages were Non-Caymanians.

Figure 1.2E: Population by Age and Sex

Figure 1.2F: Population by Age and Status

1.2.6 POPULATION BY AGE GROUP, SEX RATIO AND STATUS RATIO

As shown in the sex ratio (the number of females per 100 males), there were approximately 97.4 females for every 100 male residents.

Table 1.2G: Population by Age Group and Status Ratio

Age Group	Number of Females per 100 Males			Number of Non-Caymanians per 100 Caymanians
	Total	Caymanian	Non-Caymanian	
Total	97.4	106.7	87.7	86.9

85 - 89	131.4	127.3	188.9	8.9
90 - 94	215.0	214.3	220.0	14.5
95 - 99	366.7	333.3	-	7.7
100+	399.9	399.9	-	-
DK/NS	69.5	83.6	65.9	385.2

Among the Caymanian population, there were approximately 106.7 females for every 100 males; this ratio was significantly higher among the elderly. In the 40 to 44 years group, there were around 120 female Caymanians for every 100 male Caymanians. In contrast, the sex ratios for Non-Caymanians show that there were only approximately 87.7 females for every 100 males.

Table 1.2G shows the status ratio or the number of Non-Caymanians per 100 Caymanians. Overall, and across most age groups, the status ratios were less than 100. However, most of the economically active age groups were higher than 100, indicating more Non-Caymanian than Caymanian. Overall, there were 86.9 Non-Caymanians for every 100 Caymanians.

1.2.7 POPULATION DISTRIBUTION BY DISTRICT, AGE GROUP, SEX AND STATUS

George Town was home to the major age groups regardless of sex and status: children under 5 years (51.4%); children 5 to 14 years (44.3%); youths 15 to 24 years old (41.1%), working-age 15 + years old (49.7%) and the elderly (41.1%).

Little Cayman	0.4	0.5	0.3	0.3

Across these major age groups, Non-Caymanians are more likely to live in George Town than Caymanians; for example, 70.4 percent of all Non-Caymanian children under 5 years, while only 39.7 percent of Caymanian children in this age group reside in the district.

Overall, the district of Bodden Town had the second-highest population in the children and youth groups, while West Bay was second in the working-age and elderly groups.

Among the age groups, the proportion of Caymanians in Bodden Town was higher than in West Bay, except for the elderly.

1.2.8 POPULATION BY DISTRICT OF RESIDENCE OVER THE PAST YEAR

The Census gathered information on the usual place of residence one year ago prior to “Census Day”. This information helps track internal migration among the districts. However, it does not provide information on persons relocating residence multiple times within the year.

Overall, 86.6 percent (59,558 persons) of residents were in their district of usual residence over the past year, while 6.5 percent (4,445 persons) relocated from other districts in addition to new arrivals from abroad. George Town, West Bay and Bodden Town received the highest internal migrants. However, when measured in proportion to the current district population, the relocations to North Side and West Bay were the highest (see Table 1.2I).

Table 1.2I: Population by District of Residence One Year Ago

	Total	Usual Residents	Migrants from other districts	Children under 1 year	From Abroad	DK/NS
Total	68,811	59,558	4,445	797	3,481	530

Little Cayman	161	121	21	-	18	-

Overall, 5.1 percent of all residents moved from abroad, while 1.2 percent comprised newborn children. George Town recorded the highest percentage of residents from abroad, while Bodden Town had the highest proportion of newborn children.

Table 1.2J: Population by District of Residence Over Past Year, percent (%)

1.2.9 POPULATION BY BIRTH, CITIZENSHIP AND STATUS

The population of the Cayman Islands was comprised of residents from 162 countries and territories around the world based on place of birth. When residents' place of birth is categorised by geographical regions, the Caribbean region dominated, with 64.0 percent of residents, followed by Asia (8.9%) and North America (8.6%) (see Table 1.2K).

Among Caymanians, the region of birth was predominantly the Caribbean region (79.7%), followed by North America (7.3%) and Central America (5.6%). In contrast, the Caribbean region (45.9%), Asia (17.7%) and Europe (11.6%) were the top three regions of birth for Non-Caymanians.

Figure 1.2M: Cayman Islands Residents by Country of Birth

Residents' place of birth was from 162 different countries and territories. Therefore, very few places in the world are not represented on the Islands, as depicted on the map above.

Akin to the numerous places of birth, residents of the Cayman Islands were citizens of 147 countries. Of the 36,808 Caymanians, 4,649 were also citizens of the United Kingdom, followed by Jamaica with 4,285, the United States of America with 2,655, Canada with 1,262 and Honduras with 1,186 in the top five countries and territories. In other words, based on the results of the 2021 Census, the Cayman Islands citizenry was comprised of persons from 90 different countries.

Figure 1.2N: Caymanians with Multiple Citizenships

1.2.10 POPULATION BY RELIGION

Approximately 82 percent of the population was affiliated with a religious denomination. Males indicated a lower percentage of denominational affiliation (80%) than females (83.8%), while Caymanians also had a higher rate of religious affiliation (83.4%) than Non-Caymanians (80.1%).

The most frequently cited denominations across all population sub-groups were Church of God (19.5%), Roman Catholic (13.6%), Seventh-Day Adventist (8.7%), Baptist (6.9%) and non-denominational (8.3%). Except for the Roman Catholic and non-denomination, females had higher rates than males in these religious affiliations. Regarding status, Caymanians generally had higher rates compared to Non-Caymanians in these denominations except for Roman Catholic.

Noteworthy is that 16.7 percent of the population did not belong to or affiliated with any religion.

1.3 ILLNESS, DISABILITY AND HEALTH INSURANCE

1.3.1 INCIDENCE OF ILLNESS AND DISORDERS ASSOCIATED WITH DISABILITY

The overall incidence of diagnosed illnesses related to a disability was 129.3 per 1,000 persons 5 years and older (see Table 1.3A). The male population showed a rate of 58.1 (3,762/64,746) per 1,000 persons 5 years and older in the total population compared to the female population, which was higher at 71.2 (4,607/64,746).

When considering just among males, the incidence of illnesses was 114.9 per 1,000 males aged 5+, while for females, the incidence is higher at 144 per 1000 females (see Table 1.3A).

Among the total population aged 5+, the highest three incidences of illnesses were diabetes (46.3 per 1,000 persons), arthritis (22.2 per 1,000 persons) and cataract (20.2 per 1,000 persons). Those top three rankings were consistent for females and Caymanians, but the ordering differed slightly for males and Non-Caymanians.

Table 1.3A: Incidence of Diagnosed Illness (Persons 5+)

DK/NS	189	91	98	2.9	2.8	3.1

Components may not sum to the total due to DK/NS

The incidence of diagnosed illnesses among Caymanians aged 5+ was 193.4 per 1,000 Caymanians, more than three times that of Non-Caymanians with 56.2 per 1,000 Non-Caymanians (see Table 1.3B).

The higher incidence of diagnosed illnesses for Caymanians relative Non-Caymanians holds across all indicated types of the diagnosed condition.

1.3.2 DISABILITY

Among the population, some persons indicated having conditions that limit their activities, which amounts to an overall disability incidence of 147.2 per 1,000 persons aged 5 years and older. The top two disabilities were sight and lower limb (leg), with incidence rates of 37.2 and 33.0 per 1,000 persons, respectively.

Females had a higher incidence of disability (167.6 per 1,000) than males (127.2 per 1,000 males). This was reflected in all disabilities except hearing and communicating disabilities.

Caymanians generally had a significantly higher disability incidence rate (219.8 per 1,000 persons) among Caymanians aged 5 years and older than Non-Caymanians (64.2 per 1,000 persons) (see Table 1.3D).

1.3.3 HEALTH INSURANCE COVERAGE

A total of 64,084 or 93.1 percent of residents reported having health insurance coverage. At the same time, a mere 144 persons (0.2%) were deemed uninsurable, and 3,644 (5.3%) had no insurance coverage in 2021 (see Tables 1.3F and 1.3G). The overall coverage rate was slightly higher for females than their male counterparts, mainly due to health insurance coverage offered by the Cayman Islands government.

Table 1.3F: Population by Health Insurance, Sex and Status

Components may not sum to the total due to DK/NS

Caymanians had an overall healthcare coverage of 91.1 percent, slightly lower than the national health insurance coverage ratio. Male Caymanians were likely to have lower coverage rates (89.7%) than female Caymanians (92.4%).

Non-Caymanians had a higher health insurance coverage of 95.5 percent vis-a-vis the national and Caymanian coverage ratios. Male Non-Caymanians were equally likely to have health insurance as female Non-Caymanians.

Conversely, the percentage of uninsurable Caymanians (0.3%) is higher compared to the national ratio (0.2%) and the Non-Caymanian ratio (0.1%).

Overall, 18.1 percent of all residents had health insurance provided through the government, with a higher ratio (25.8%) among Caymanians than Non-Caymanians (9.2%).

1.4 EDUCATION

1.4.1 SCHOOL ATTENDANCE

A total of 14,664 persons attended school, which included full-time (12,576), part-time (1,877) and home-schooled (212). Public school attendance totalled 7,091, while private school was 7,362 (see Table 1.4A). School attendance includes schooling locally or overseas at all levels.

Persons in the age groups 5 to 9 and 10 to 14 years had the highest schooling rates among all age groups. The schooling rate declined with working-age persons aged 15 to 19 and 20 to 24 years.

Part-time schooling increased from 5.2 percent in the age groups from 15 to 19 to 7.7 percent in the 20 to 24 age group and declined to 2.5 percent for persons aged 25 and over (see Table 1.4B).

DK/NS	100.0	14.4	3.5	3.2	0.6	4.8	35.9	37.5

Among those persons in full-time and home-schooling, the younger age groups dominate the distribution as the 0 to 4 up to 15-19 age groups accounted for 91.1 percent of public school attendance and 87.1 percent of private school. The reverse trend was observed for part-time education, where the older groups dominated.

Table 1.4D: School Attendance by Type of School or Institution

	Total	Type of School or Institution Attending								
		Nursery / Preschool	Primary School	Middle/High School	Vocational Institution	Community College	University/ College	Special Education	Others	DK/NS
Total	14,664	1,647	4,519	4,287	151	369	3,211	130	289	61

Little Cayman	4	-	2	1	-	-	1	-	-	-

A total of 14,664 persons were attending schools or institutions. Nursery/pre-school/primary school (42.0%), middle/high school (29.2%) and university/college (21.9%) accounted for 93.1 percent of all school attendance (see Tables 1.4D and 1.4E).

Similar to the population count distribution, the overwhelming share of persons attending school was from George Town, with 45.7 percent, followed by Bodden Town, with 25.9 percent, and West Bay, with 20.1 percent.

The highest grade completed is dominated by high school, post-secondary and university/college, accounting for 88.8 percent of total education attainment (see Table 1.4G).

As displayed in Table 1.4G, among the working-age population (age 15 +), 9.1 percent of persons completed below high school, with 0.4 percent completed 'no grade'. Consequently, Caymanians made up the majority of the working-age population with no grade completed (72.1%), up to high school (57.8%) and others³ (59.7%). Non-Caymanians were the majority among those with post-secondary (vocational and community college) and college/university education.

³ The "Other" category is made up of predominantly special education.

Table 1.4G: Educational Attainment by Type of School and Institution, District, Proportion of total (%)

1.4.2 HIGHEST EXAMINATION COMPLETED

The majority of the working-age population 15 years and older completed at least one examination; however, 13.8 percent did not pass any. The proportion of working-age persons who did not complete at least one examination is distributed between Caymanians and Non-Caymanians, 15.0 percent and 12.6 percent, respectively (see Table 1.4H).

Table 1.4H: Highest Examination Completed of 15 years old and over

Other	246	0.4	131	0.5	115	0.4
DK/NS	1,465	2.6	904	3.1	560	2.0

Among the examinations passed, the top three completed examinations were bachelor's degree (17.9%), vocational/trade certificate or diploma (13.9%), followed by high school diploma or equivalent certificate (9.1%). In addition, post-graduate certificates or diplomas or master's degrees (8.9%) and professional qualifications (3.6%) also had a high completion count.

Bachelor's degree and vocational/trade certificate were the highest among the examinations completed for Caymanians and Non-Caymanians. The third highest examination level achieved was high school diplomas (11.6%) for Caymanians and post-graduate degrees (9.1%) for Non-Caymanians.

1.4.3 EDUCATIONAL LITERACY

In its broadest sense, literacy describes "particular ways of thinking about and doing reading and writing" to understand or express thoughts or ideas in written form in some specific context of use. Literacy is best assessed in the general population through a national assessment of adult literacy survey. In the absence of a national literacy survey for the Cayman Islands, self-reported literacy relied upon collected information from Census 2021.

Persons 10 years and older self-reported literacy were at 98.6 percent, which was relatively consistent with Caymanians and Non-Caymanians. The literacy rate deviated slightly by gender, with 98.4 percent among males and 98.8 for females.

Table 1.4I: Literacy by Sex and Status (10 years and older)

	Total	Non-		Male	Female	DK/NS
		Caymanian	Caymanian

1.5 MARITAL AND UNION STATUS

1.5.1 MARITAL STATUS

Approximately 48.4 percent of residents aged 15+ years were legally married, while a significant percentage have never been married (38.3%). The overall divorce rate among the entire population was 7.6 percent, while the legal separation and widowhood rates were at 2.1 and 2.9 percent, respectively.

While legally married was the dominant status, the rate varies by sex, with the males generally having a higher rate (51.5%) than females (45.2%). It was also generally higher among Non-Caymanians (49.2%) than Caymanians (47.6%).

The status “never married” was higher among females (38.4%) versus males (38.3%) and Non-Caymanians (41.5%) versus Caymanians (35.3%).

Divorce was higher among females (9.1%) than males (6.1%). The incidence of divorce was also almost twice among Caymanians (10.0%) than Non-Caymanians (5.1%).

Table 1.5A: Marital Status by Sex and Status (15+)

	Total	Male	Female	DK/NS	Caymanian	Non-Caymanian
Total	57,360	28,976	28,379	5	29,108	28,252

1.5.2 UNION STATUS

Union status is based on the spouses or partners current living arrangements among persons aged 15 years and above. A legally married person may not necessarily be living with a spouse. The percentage of married persons living with a spouse (39.4%) was lower than those legally married (48.4%).

Persons who are living with their spouses were slightly higher among females (39.6%) than males (39.2%) and among Caymanians (43.7%) vis-a-vis Non-Caymanians (34.9%).

The number of married persons with a spouse living elsewhere (including abroad) was greater among males (12.5%) than females (6.0%) and Non-Caymanians (14.4%) than Caymanians (4.4%).

A significant number of respondents (40.3%) were 'not in a union', with the females (43.4%) having a higher percentage than males (37.2%). This union status was also more common among Caymanians (42.7%) than Non-Caymanians (37.8%).

Table 1.5B: Union Status by Sex and Status (15+)

1.6 FERTILITY

1.6.1 PREVALENCE OF MOTHERHOOD

Approximately 51.7 percent of all females aged 15 to 49 years are mothers. The prevalence of motherhood among teens (15-19 years) was 1.7 percent; however, the pervasiveness of motherhood rose to 17.6 percent among females in their early 20's.

Table 1.6A: Prevalence of Motherhood (Aged 15-49)

Age Group	Fertility Age - Motherhood				% Mothers
	Total	No Children	Children	DK/NS	
	#	#	#	#	
Total	18,701	9,007	9,669	25	51.7
15 - 19	1,571	1,543	27	1	1.7
20 - 24	1,658	1,364	292	2	17.6
25 - 29	2,643	1,743	896	3	33.9
30 - 34	3,197	1,603	1,592	2	49.8
35 - 39	3,345	1,109	2,231	6	66.7
40 - 44	3,236	850	2,379	6	73.5
45 - 49	3,051	794	2,252	5	73.8
	Proportion (%)				
15 - 19	8.4	17.1	0.3		
20 - 24	8.9	15.1	3.0		
25 - 29	14.1	19.4	9.3		
30 - 34	17.1	17.8	16.5		
35 - 39	17.9	12.3	23.1		
40 - 44	17.3	9.4	24.6		
45 - 49	16.3	8.8	23.3		

In the age groups 25 to 29 and 30 to 34, the prevalence of motherhood was at 33.9 percent and 49.8 percent, respectively. For females aged 40 to 44 and 45 to 49, over 73 percent are mothers by that age.

Among females aged 15 to 49 with children, Caymanian females were more likely (19.3%) to bear two children. Compared to Caymanians, Non-Caymanian females were more likely to bear one child (22.8%) (see Table 1.6B).

Bearing three or four children was more likely among Caymanian than Non-Caymanian females.

Table 1.6B: Number of Live Births by Status

Number of Live Births	Total #	Caymanian #	Non-Caymanian #
Total	18,701	8,454	10,247
	Proportions (%)

Four	3.0	3.5	2.7
Five	1.0	1.0	0.9
Six	0.3	0.4	0.3
Seven	0.1	0.1	0.1
Eight or more	0.1	0.1	0.0
None	48.2	48.9	47.6
DK/NS	0.1	0.1	0.1

1.6.2 AVERAGE NUMBER OF CHILDREN PER MOTHER AND FEMALE

Caymanian mothers were likely to have more children, evidenced by a higher fertility rate than Non-Caymanians. Caymanian mothers have an average number of children of 2.1 compared to 1.9 for Non-Caymanian mothers (see Figure 1.6C). Across all females aged 15 to 49, the average number of births was higher for Caymanian females (1.1 births) than Non-Caymanian females (1.0 births).

Figure 1.6C: Average Number of Children

1.7 EMPLOYMENT

1.7.1 MAIN LABOUR FORCE INDICATORS BY SEX

The number of persons in the working-age population was recorded at 57,360, of which the labour force was 47,120 (see Table 1.7A). The latter comprises those of working age (15+ years) who are working or seeking work and are available for work during the reference week (October 3rd to 9th, 2021). The resulting labour force participation rate (ratio of the labour force to the total working-age population) was 82.1 percent.

In 2021, consistent with the overall population structure, there were more males (50.5%) in the working-age population than females (49.5%). Males (52.6%) in the labour force exceeded females (47.4%). Thus, males' labour force participation rate was higher at 85.5 percent compared to females at 78.8 percent.

Table 1.7A: Labour Force Indicators by Sex

	Total	Male		Female	
		#	%	#	%
Working Age Population (15+)	57,360	28,976	50.5	28,379	49.5
Labour Force	47,120	24,765	52.6	22,355	47.4
Employed	44,441	23,497	52.9	20,944	47.1
Unemployed	2,679	1,267	47.3	1,411	52.7
Not In Labour Force	10,240	4,211	41.1	6,025	58.8
Labour Force Participation Rate (%)	82.1	85.5		78.8	
Unemployment Rate (%)	5.7	5.1		6.3	

Total employment was registered at 44,441, of which 52.9 percent were males, and 47.1 percent were females. The unemployed reached 2,679, of which 47.3 percent were males while 52.7 percent were females. Thus, the overall unemployment rate was 5.7 percent; females had a higher unemployment rate of 6.3 percent than males with 5.1 percent.

1.7.2 MAIN LABOUR FORCE INDICATORS BY STATUS

The Caymanian working-age population was recorded at 29,108 or 50.7 percent of the country's total working-age population, while Non-Caymanians totalled 28,252 or 49.3 percent. The status ratio indicates almost 97.1 Non-Caymanians in the working-age population for every 100 Caymanians (see Table 1.7B).

Table 1.7B: Labour Force Indicators by Status

	Total	Caymanian		Non Caymanian		Non-Caymanian Per 100 Caymanian
		#	%	#	%	
Working Age Population	57,360	29,108	50.7	28,252	49.3	97.1
Labour Force	47,120	21,298	45.2	25,823	54.8	121.2
Employed	44,441	19,494	43.9	24,947	56.1	128.0
Unemployed	2,679	1,803	67.3	876	32.7	48.6
Not In Labour Force	10,240	7,811	76.3	2,429	23.7	31.1
Labour Force Participation Rate (%)	82.1	73.2		91.4		
Unemployment Rate (%)	5.7	8.5		3.4		

Although the Caymanian working-age population was higher, the labour force count was lower at 21,298 (or 45.2% of the total labour force) than Non-Caymanians, which totalled 25,823 (or 54.8%). Therefore, more Non-Caymanians were working or seeking work and were available for work during the census reference week. A higher proportion of working-age Caymanians would be in school vis-à-vis looking for work.

Nevertheless, the resulting labour force participation rate for Caymanians was 73.2 percent compared to the Non-Caymanians with 91.4 percent.

Employment among Caymanians totalled 19,494 (43.9% of the total), while Non-Caymanians were 24,947 (56.1%). The status ratio indicates that approximately 128 employed Non-Caymanians for every 100 Caymanians employed.

The unemployed Caymanians were counted at 1,803, resulting in an unemployment rate of 8.5 percent, while the unemployed Non-Caymanian labour force was 876 resulting in an unemployment rate of 3.4 percent. That is, there were 48.6 unemployed Non-Caymanians for every 100 unemployed Caymanians.

1.7.3 MAIN LABOUR FORCE INDICATORS: CAYMANIANS BY SEX

More female Caymanians were in the working-age group (52.3%) than male Caymanians (47.6%) (see Table 1.7C).

The Caymanian labour force participation rate for males was higher at 76.1 percent versus the females' 70.5 percent.

Employed Caymanians numbered 19,494; 49.4 percent were males, while 50.6 percent were females. Consequently, the unemployment rate among male Caymanians was higher at 8.7 percent compared to the females' 8.2 percent.

Table 1.7C: Caymanian Labour Force Indicators by Sex

	Caymanian Labour Force Indicators					Female per 100 Male
	Total	Male		Female		
		#	%	#	%	
Working Age Population	29,108	13,870	47.6	15,235	52.3	109.8
Labour Force	21,298	10,558	49.6	10,739	50.4	101.7
Employed	19,494	9,635	49.4	9,859	50.6	102.3
Unemployed	1,803	923	51.2	880	48.8	95.4
Not In Labour Force	7,811	3,312	42.4	4,496	57.6	135.7
Labour Force Participation Rate (%)	73.2	76.1		70.5		
Unemployment Rate (%)	8.5	8.7		8.2		

1.7.4 MAIN LABOUR FORCE INDICATORS: NON-CAYMANIANS BY SEX

The working-age population of Non-Caymanians comprised 53.5 percent males and 46.5 percent females. There were approximately 87.0 female Non-Caymanians for every 100 male Non-Caymanians in the working-age population (see Table 1.7D).

Table 1.7D: Non-Caymanian Labour Force Indicators by Sex

	Non-Caymanian Labour Force Indicators					Female per 100 male
	Total	Male		Female		
		#	%	#	%	
Working Age Population	28,252	15,106	53.5	13,145	46.5	87.0
Labour Force	25,823	14,207	55.0	11,616	45.0	81.8
Employed	24,947	13,862	55.6	11,085	44.4	80.0
Unemployed	876	345	39.4	531	60.6	154.0
Not In Labour Force	2,429	899	37.0	1,529	62.9	170.0
Labour Force Participation Rate (%)	91.4	94.0		88.4		
Unemployment Rate (%)	3.4	2.4		4.6		

The Non-Caymanian labour force also showed a higher percentage of males (55.0%) than females (45.0%) and approximately 81.8 females for every 100 males. The labour force participation rate for Non-Caymanian males was greater than females with 94.0 percent and 88.4 percent, respectively. Consequently, the unemployment level (345) and unemployment rate (2.4%) were also lower for males than the females' unemployment level (531) and unemployment rate (4.6%).

Unemployed Non-Caymanians, which stood at 876 persons, were predominantly work permit holders changing jobs (40.5%), unemployed permanent residents including dependents (35.6%) and dependents of work permit holders (22.8%).

1.7.5 Main labour force indicators by ten-year age groups

As depicted in Table 1.7E, age groups from 25-34 up to 55-64 dominated the working-age population (accounting for 79.1% of the total), the labour force (88.9%), employment (89.9%), and unemployment (72.3%).

Table 1.7E: Main Labour Force Indicators by Age Groups

Age Group	Total	15 - 24	25 - 34	35 - 44	45 - 54	55 - 64	65+
Working Age Population	57,360	6,586	11,830	13,510	12,097	7,924	5,414
<i>Distribution (%)</i>	100.0	11.5	20.6	23.6	21.1	13.8	9.4
<i>Sex Ratio</i>	97.9	96.2	97.5	95.0	95.0	99.1	114.8

Labour Force	47,120	3,236	11,245	12,854	11,223	6,569	1,995
<i>Distribution (%)</i>	100.0	6.9	23.9	27.3	23.8	13.9	4.2
<i>Sex Ratio</i>	90.3	90.0	95.0	90.7	88.8	89.6	73.7
<i>Status Ratio</i>	121.2	40.0	185.1	215.9	109.0	64.5	24.0
Employed	44,441	2,671	10,662	12,350	10,746	6,195	1,817
<i>Distribution (%)</i>	100.0	6.0	24.0	27.8	24.2	13.9	4.1
<i>Sex Ratio</i>	89.1	93.7	94.7	89.0	87.0	88.3	70.1
<i>Status Ratio</i>	128.0	44.8	195.0	222.8	112.3	67.6	25.2
Unemployed	2,679	565	583	503	477	373	178
<i>Distribution (%)</i>	100.0	21.1	21.8	18.8	17.8	13.9	6.6
<i>Sex Ratio</i>	111.3	74.5	102.1	145.0	144.3	113.4	121.5
<i>Status Ratio</i>	48.6	20.9	76.9	106.3	54.8	25.7	12.9

The sex ratios among working-age persons were more males than females across all age groups except the last group (65+ years), where there were 114.8 females per 100 males. In the labour force, the sex ratios were consistently lower than 100 for females across all age groups, which means that the number of males exceeded the number of females. Similarly, males outnumbered females across all age groups among employed persons. Except for the youth unemployment age group, more females were unemployed than their male counterparts across all age groups.

The status ratios for the working-age population, labour force and employed showed that generally, Non-Caymanians exceeded Caymanians in the age groups 25-34 up to 45-54. However, among those unemployed, except for the age group 35-44, there were more Caymanians than Non-Caymanians across all age groups.

As depicted in Table 1.7F, the labour force participation rates (LFPR) were consistently higher among males than females for all age groups. The LFPR was higher among Non-Caymanians than Caymanians except for the age group 15 to 24.

For both males and females, the highest unemployment rate was in the “youth” age group 15-24; however, the male unemployment rate (32.7%) was slightly higher than that of the females (28.0%) (see Table 1.7F).

Table 1.7F: Unemployment and Labour Force Participation Rates by Age Groups

	Total	15 - 24	25 - 34	35 - 44	45 - 54	55 - 64	65+
Unemployment rate (%)							
Total	5.7	17.4	5.2	3.9	4.3	5.7	8.9
Male	5.1	32.7	15.2	5.8	4.4	2.6	3.5
Female	6.3	28.0	12.3	5.5	5.2	4.9	4.9
Caymanian	8.5	30.8	16.3	8.6	8.1	6.1	5.9
Non-Caymanian	3.4	27.6	9.0	3.6	3.3	2.7	3.3
Labour Force Participation Rate (%)							
Total	82.1	49.1	95.1	95.1	92.8	82.9	36.8
Male	85.5	23.3	75.1	95.5	96.9	97.3	97.3
Female	78.8	21.3	72.3	93.8	93.9	93.4	92.4
Caymanian	73.2	24.2	70.7	93.0	93.9	95.1	94.1
Non-Caymanian	91.4	13.6	80.6	95.8	96.1	95.5	95.3

The unemployment rates were consistently higher among Caymanians than Non-Caymanians across all age groups. For example, in age groups 35-44 up to 55-64, the unemployment rates for Caymanians more than doubled that of Non-Caymanians. Noteworthy, the unemployment rate among the elderly (65+ years) Caymanians (5.9%) was the lowest among the different age groups.

1.7.6 Employment by occupation

The top five occupations accounted for 75.9 percent of total employment, along with males and females employment (see Tables 1.7G and 1.7H).

Regarding status, four of the top five occupational classes were dominated by Non-Caymanians (professionals, service and sales, elementary occupations and craft and related workers).

The occupational class ‘Managers’, which include directors, chief executive officers, and senior government officials, had a share of 11.1 percent of total employment, which Caymanians dominate.

The top five major occupational groups in the Cayman Islands in 2021 were:

- Professionals occupational class ranked first with the employment of 8,147 persons or 18.3 percent of the total. This category accounts for the second-largest employment among females (21.1%) and males (15.9%).

Regarding status, this occupation category comprises the second-largest occupation of employed Caymanians (16.9%) and Non-Caymanians (19.5%).

- Service and sales workers ranked second with employment of 7,815 or 17.6 percent of total employment. This occupation accounts for the largest female employment (22.8% of the total).

In terms of status, service and sales workers accounted for the largest share of all Non-Caymanian occupations (21.4%) and the fifth-largest share of Caymanian occupations (12.7%).

Table 1.7G: Employed Persons by Occupation and Sex, Sex Ratio, 2021

	Total		Male		Female		Sex Ratio
	#	%	#	%	#	%	
Total	44,441	100.0	23,497	100.0	20,944	100.0	89.1
Managers	4,919	11.1	2,716	11.6	2,203	10.5	81.1
Professionals	8,147	18.3	3,733	15.9	4,414	21.1	118.3
Technicians and Associate Professionals	5,610	12.6	2,397	10.2	3,212	15.3	134.0
Clerical Support Workers	3,262	7.3	880	3.7	2,382	11.4	270.8
Service and Sales Workers	7,815	17.6	3,034	12.9	4,781	22.8	157.6
Skilled agricultural, forestry and fishery workers	518	1.2	478	2.0	40	0.2	8.3
Craft and related trades workers	6,263	14.1	5,985	25.5	278	1.3	4.6
Plant and machine operators, and assemblers	1,453	3.3	1,295	5.5	159	0.8	12.3
Elementary occupations	5,894	13.3	2,679	11.4	3,215	15.4	120.0
Armed forces occupations	11	0.03	9	0.04	2	0.01	22.2
Not Stated	549	1.2	291	1.2	258	1.2	88.8

- Craft and related workers was the third-largest industry with 6,263 or 14.1 percent of the total employment. In terms of Sex, this category was the largest class employing 25.5 percent males and 1.3 percent of females.

Craft and related workers category was the fourth-largest occupational class for Non-Caymanians (17.7%) but the sixth-lowest among Caymanians (9.5%).

- Elementary occupations ranked fourth. This class included cleaners, domestic helpers, construction labourers, agriculture and fishery labourers, and a total of 5,894 or 13.3 percent of all occupations. It accounted for the third-largest percentage of females (15.4%) and ranked fifth (11.4%) for males.

In terms of status, elementary occupations was third among Non-Caymanians (18.6%) and employed 6.4 percent of Caymanians.

Table 1.7H: Employed Persons by Occupation and Status, Status Ratio, 2021

	Total		Caymanian		Non-Caymanian		Status Ratio
	#	%	#	%	#	%	
Total	44,441	100.0	19,494	100.0	24,947	100.0	128.0
Managers	4,919	11.1	3,265	16.7	1,654	6.6	50.7
Professionals	8,147	18.3	3,289	16.9	4,858	19.5	147.7
Technicians and Associate Professionals	5,610	12.6	3,581	18.4	2,028	8.1	56.6
Clerical Support Workers	3,262	7.3	2,511	12.9	751	3.0	29.9

Skilled agricultural, forestry and fishery workers	518	1.2	150	0.8	368	1.5	246.3
Craft and related trades workers	6,263	14.1	1,859	9.5	4,403	17.7	236.8
Plant and machine operators, and assemblers	1,453	3.3	815	4.2	639	2.6	78.4
Elementary occupations	5,894	13.3	1,244	6.4	4,650	18.6	373.8
Armed forces occupations	11	0.03	8	0.04	3	0.01	37.5
Not Stated	549	1.2	296	1.5	253	1.0	85.6

- Technicians and associate professionals ranked fifth with 5,610 or 12.6 percent of total employment. The category was the fourth most important occupational class for females (15.3%) and the sixth among males (10.2%).

Status-wise, this occupational class employed the largest percentage of Caymanians (18.4%) and the fifth-largest number of Non-Caymanians (8.1%).

1.7.7 Employment by industry

In 2021, the top five employment industries were (Tables 1.7I and 1.7J):

- Construction ranked first with total employment of 6,324 or 14.2 percent of the country's employment. It accounts for 24.8 percent of total male employment and only 2.4 percent of all female employees.

Construction was the largest employer of Non-Caymanians (16.8%) and the fifth-largest among Caymanians (11.0%).

- Wholesale and retail was the second largest employment industry with 5,103 or 11.5 percent of total employment. This industry had 12.4 percent of total male employment and 10.5 percent of total female employment.

Regarding status, wholesale and retail trade was the third most important for Caymanians (12.1% of total Caymanian employment) and second-highest for Non-Caymanians with 11.0 percent.

Table 1.7I: Employed Persons by Industry, Sex and Sex Ratio, 2021

	Total		Male		Female		Sex Ratio
	#	%	#	%	#	%

Not Stated	567	1.3	285	1.2	282	1.3	98.9

- Professional, scientific and technical activities (accounting, legal, engineering, and other business services) were the third largest industry, with 4,667 or 10.5 percent of total employment. The category ranked second in female employment (11.7%), while for males, it was 9.4 percent. There were approximately 111.5 females for every 100 males in this industry, as indicated by the sex ratio.

This industry is also the largest employer of Caymanians (12.1%), while 9.2 percent of Non-Caymanians are employed.

- Financial services (financial and insurance activities) ranked fourth with 3,654 employees or 8.2 percent of the total employment. It was the third-largest employer of females (10.7%) and employed 6.0 percent of all males employed. There were approximately 159.5 females for every 100 males in this industry.

This industry was the largest employer of Caymanians (12.4%), with 4.9 percent of Non-Caymanians employment.

Table 1.7J]: Employed Persons by Industry, Status and Status Ratio, 2021

Not Stated	567	1.3	294	1.5	273	1.1	92.7

- Public administration ranked fifth among the top employers, with 3,100 or 7.0 percent of total employment. This category was the fifth-largest employer of males (6.5%) and the sixth for females (7.5%).

Regarding status, public administration accounted for 12.3 percent of all Caymanian employment and 2.8 percent of Non-Caymanian employment resulting in a status ratio of approximately 29.3 Non-Caymanians for every 100 Caymanians.

1.7.6 EMPLOYMENT BY EARNINGS

Employment earnings by sex

In 2021, the country had average annual employment earnings of \$49,611, while the median earnings was \$35,994 per year (see Table 1.7K). There were 5,611 persons in the earnings band \$43,200 - \$57,599, which included the annual average earnings. At least 53.5 percent of the employed labour force were in earnings brackets lower than the “average earnings bracket”, while 29.0 percent are in the higher brackets.

Table 1.7K: Earnings of Employed Persons by Sex

Earnings Bracket	Total		Male		Female		Sex Ratio
	#	%	#	%	#	%	
Total	44,441	100.0	23,497	100.0	20,944	100.0	89.1

\$72,000 - \$86,399	2,686	6.0	1,280	5.4	1,407	6.7	109.9
\$86,400 - \$100,799	2,045	4.6	1,082	4.6	963	4.6	89.0
\$100,800 +	3,921	8.8	2,469	10.5	1,453	6.9	58.8
Not Stated	2,153	4.8	1,139	4.8	1,014	4.8	89.0
Mean Annual Earnings (\$)	49,611		51,724		47,241		
Median Annual Earnings (\$)	35,994		35,994		35,994		

The highest percentage among the employed (26.2%) had earnings within the second-lowest earnings bracket (\$14,400 to \$28,799). This is the bracket with the greatest frequency of employed males and females with 26.3 percent and 26.0 percent, respectively. This is followed by the bracket \$28,800 to \$43,199 containing 19.1 percent of the employed labour force and the median earnings.

Earnings by status

As indicated by the status ratios, there are more Non-Caymanian employees than Caymanians in the lowest income brackets. There are approximately 206.8, 264.6 and 115.9 Non-Caymanians for every 100 Caymanians in the lowest three brackets (see Table 1.7L).

There are relatively more Caymanians in the higher income brackets, particularly in the \$43,200 - \$57,599 where there are close to 70.7 Non-Caymanians for every 100 Caymanians.

The gap, however, reversed in the highest earnings bracket.

Table 1.7L: Earnings of Employed Persons by Status

Earnings Bracket	Total		Caymanian		Non-Caymanian		Status Ratio

1.8 HOUSEHOLD AND HOUSING CHARACTERISTICS

1.8.1 HOUSEHOLD COUNT

A total of 29,699 households were counted in the 2021 Census. The 2021 Census data shows that 6,939 households were added between 2010 and 2021, representing a 30.5 percent increase over the 11 years. George Town expanded by 2,999 households; West Bay by 1,856; Bodden Town by 1,668; North Side by 186; East End by 194; and the Sister Islands by 36.

Figure 1.8A: Number of Households by District 2010 vs 2021

The rate of household increase was highest in Bodden Town at 43.8 percent. The increases in West Bay (40.8%), East End (38.6%) and North Side (34.4%) were higher than the national rate of growth (30.5%).

1.8.2 DISTRIBUTION BY DISTRICT

In terms of distribution, the majority (51.6%) of households in the 2021 count were located in George Town, while West Bay accounted for 21.6 percent and Bodden Town, 18.4 percent. North Side's and East End's share of households was 2.4 and 2.3 percent, respectively. The Sister Islands accounted for 3.6 percent.

The proportion of households in George Town and the Sister Islands declined while Bodden Town and West Bay grew since the last Census. West Bay and North Side had relatively stable shares.

Table 1.8B: Comparative Distribution of Households

District	2010		2021	
	#	%	#	%
Total	22,760	100.0	29,699	100.0
George Town	12,332	54.2	15,331	51.6
West Bay	4,552	20.0	6,408	21.6
Bodden Town	3,810	16.7	5,478	18.4
North Side	540	2.4	726	2.4
East End	502	2.2	696	2.3
Sister Islands	1,024	4.5	1,060	3.6

1.8.3 HOUSEHOLD SIZE

In the 2021 Census, the average household size declined marginally to 2.39 persons per household. Except for George Town, which remained constant over the census period, all districts recorded marginal reductions.

Table 1.8C: Average Household Size by District⁴

District	Average Household Size	
	2010	2021
Total	2.42	2.39
George Town	2.28	2.28
West Bay	2.47	2.39
Bodden Town	2.77	2.71
North Side	2.74	2.62
East End	2.80	2.65
Sister Islands	2.24	2.13

One-third of households (34.6%) was single-member household (see Table 1.8D). All the districts had a higher concentration of single-member households. Across all districts, two-member households accounted for about 30.2 percent of households. Large households of five members or more were more likely in Bodden Town, North Side and East End.

⁴ This is calculated using the non-institutional population, which is the tabular population plus the non-response population estimate. The non-institutional population divided by the district household count.

**Table 1.8D: Number of Persons per Household by District**

District	Number of Persons per Household					
	Total	1	2	3	4	5 +
Total	29,699	10,276	8,975	4,657	3,478	2,313

Little Cayman	130	67.5	29.9	1.7	-	0.9

1.8.4 OWNERSHIP OF DWELLINGS

Most of the households in the country (14,688 or 49.4% of all households) lived in furnished rented dwellings. A significant number also lived in their owned homes, with or without a mortgage.

Table 1.8E: Households by Ownership of Dwellings

Ownership of Dwellings	2010		2021		% Change
	#	%	#	%	
Total	22,760	100.0	29,699	100.0	30.5
Rented -Furnished	10,549	46.3	14,668	49.4	39.0
Owned with mortgage	6,359	27.9	6,787	22.9	6.7
Owned without mortgage	4,343	19.1	6,052	20.4	39.4
Rent-free provided by employer, relative or friend	702	3.1	673	2.3	(4.2)
Rented - Unfurnished	584	2.6	568	1.9	(2.7)
Subsidized rent provided by employer, relative or friend	91	0.4	128	0.4	40.8
Other	63	0.3	113	0.4	78.8
DK/NS	69	0.3	711	2.4	930.1

As depicted in Table 1.8E, there was a reduction in the proportionate share of household dwellings owned with a mortgage from 27.9 percent in 2010 to 22.9 percent, despite the overall number of homes owned with a mortgage increasing by 6.7 percent. The percentage of homes owned without a mortgage increased from 19.1 percent to 20.4 percent in 2021. The number of homes owned without a mortgage increased by 39.4 percent relative to the 2010 Census.

Homeownership without a mortgage was highest in North Side (33.2%) and lowest in George Town (15.7%), while homeownership with a mortgage was highest in Bodden Town (39.0%) and lowest in East End (15.7%) and the Sister Islands (16.6%) (see Table 1.8F).

Table 1.8F: Percentage Distribution of Households by Ownership of Dwellings

District	Total	Owned		Rented				Other DK/NS

1.8.5 TYPES OF DWELLINGS

In 2021, households' accommodation of choice was mainly detached houses (11,021 or 37.1% of total) and apartments (9,697 or 32.7% of total). In all the districts, except George Town, most households lived in detached houses, while apartments were the most preferred type of dwelling in George Town.

Table 1.8G: Number of Households by Ownership of Dwellings

Dwelling	Total	George Town	West Bay	Bodden Town	North Side	East End	Sister Islands	Cayman Brac	Little Cayman

1.8.6 NUMBER OF ROOMS

The highest percentage of households (19%) lived in homes with five rooms, most likely comprising of two (2) bedrooms, a kitchen, a living room and a dining room (bathrooms were counted separately).

One thousand three hundred and five households (or 4.4% of total households) lived in one-room dwellings; these households typically share a bathroom and kitchen with another household.

Figure 1.8H: Household by Number of Rooms

Approximately 15.7 percent of households shared a kitchen, and 11.1 percent shared a bathroom with another household. The sharing of kitchens and bathrooms was most prominent among households in George Town and East End.

Table 1.8I: Percentage of Households with Shared Bathroom/Kitchen

	Total	Share bathroom			Share kitchen		
		Yes	No	DK/NS	Yes	No	DK/NS
	#	Proportion of District Total (%)					
Total	29,699	11.1	82.0	6.9	15.7	80.8	3.5

Little Cayman	130	6.0	82.1	12.0	10.3	87.2	2.6

1.8.7 WATER SUPPLY

Most households in the Cayman Islands (90.5%) obtain their water from mains – piped city water or desalinated water - (see Table 1.8J). In the Sister Islands, most households had cisterns (rain or trucked water) (52.5%) as their main water source. Nonetheless, most households across all districts use bottled water (75.2%) as the primary source of drinking water.

Table 1.8J: Water Supply by District, Percentage of Households

	Main Source of Household Water							Bottled Water Main Source of Drinking Water (%)	
		Mains (City water or desalinated)	Cistern (rain or truck)	Well / Others	Well	None	DK/NS		
Total	29,699	26,883	1,020	821	773	3	972		
Distribution (%)	100.0	90.5	3.4	2.8	2.6	0.01	3.3	75.2	
		Proportion of District Total (%)

Cayman Brac	930	32.2	52.1	14.7	14.7	-	1.0	80.9	
Little Cayman	130	29.1	55.6	13.7	12.8	-	1.7	67.5	

1.8.8 HOUSING STRUCTURE INSURANCE

At least 56.7 percent of all households in the Cayman Islands had housing structure insurance in 2021 (see Table 1.8K). Among the districts, households in Bodden Town are most likely to be insured (60.8%), followed by George Town (58%) and West Bay (57.1%). However, most households in East End, North Side and the Sister Islands had no housing insurance.

Figure 1.8K: Percentage of Households with Housing Insurance

1.8.9 HOUSEHOLD AMENITIES

In 2021, households had high amenities ownership ratios: internet (91%), computers (66.7%), radio (39.5%), television (87.4%) and cell phones (94.8%). Of the 94.8 percent with cell phones, approximately 69.1 percent of those households had at least two (2) or more cell phones. However, only 17.3 percent of households had a fixed-line phone.

Among the districts, the proportion of household amenities within households was consistent with the national average.

Table 1.8L: Proportion of Household Amenities by District

	Total	Internet	Computers	Radio	Television	Cable / Satellite	Fixed Line Phones	Mobile Phones
		Percentage of households amenities (%)						
Total	29,699	91.0	66.7	39.5	87.4	44.5	17.3	94.8
George Town	15,331	91.6	66.3	34.8	86.5	44.3	13.3	94.8
West Bay	6,408	91.1	67.4	39.0	88.1	45.5	15.3	94.2
Bodden Town	5,478	91.2	71.3	50.4	90.2	46.7	26.3	95.6
North Side	726	88.7	62.3	49.1	89.0	39.8	26.3	95.4

Little Cayman	130	93.2	64.1	17.9	72.6	24.8	22.2	95.7

Figure 1.8M: Household Amenities/Devices

In the Cayman Islands, 79.9 percent of households own a motor vehicle, with an average of 1.7 per household. About 66.7 percent of households own a computer, with another 50

percent owning tablets. On average, ownership of computers and tablets is at 2 per household and 1.8 per household, respectively.

1.8.10 ENVIRONMENTAL ACTIVITIES AND RENEWABLE ENERGY

Renewable Energy

A renewable resource can replenish itself at the rate it is used, including wind turbines, solar cells, ground-source (geothermal) heat pumps and biomass, to name a few. Of the 29,699 households counted in the 2021 Census, 659 (2.2%) households are engaged in the production of solar renewable energy, of which 462 (70% of production) was for sale to the national electricity grid, while another 197 households (30%) produce renewable energy for household use only.

Table 1.8N: Household Production of Renewable Energy by District

District	Total Households	Solar Cells Electricity Production			Solar Water Heating	Geothermal Heat Pump
		Total	For Sale	Home Use Only		
Total	29,699	659	462	197	47	7
Renewable (%)		2.2	1.6	0.7	0.16	0.02
Percent (%) of district households						
George Town	15,331	1.8	1.3	0.5	0.16	0.01
West Bay	6,408	3.4	2.7	0.7	0.09	0.03
Bodden Town	5,478	2.3	1.6	0.7	0.24	0.06
North Side	726	1.1	0.6	0.6	0.14	-
East End	696	1.0	0.7	0.3	-	0.15
Sister Islands	1,060	3.0	0.1	2.9	0.20	-
Cayman Brac	930	1.1	-	1.1	0.23	-
Little Cayman	130	16.2	0.9	15.4	-	-

ENVIRONMENTAL ACTIVITIES

Approximately 71.8 percent of households purchase locally produced food, and 63.9 percent use energy-efficient bulbs (see Tables 1.8O and 1.8P). Purchasing reusable household items was common among 53.6 percent of households, and 44.6 percent reported purchasing eco-friendly or green products. Recycling and sorting refuse/garbage was more commonplace, with 36.1 percent of households engaging in this activity in 2021.

While 71.8 percent or 21,336 households purchased locally produced food, many of these households also engage in other environmentally friendly activities. For instance, 14,429 of

these households also use reusable items, while 16,821 purchase energy-efficient bulbs (See Table 1.80).

Of the 18,964 (63.9%) households purchasing energy-efficient bulbs, 11,422 households also purchased eco-friendly or green products. In addition, three in every five households engage in three or more environmentally friendly activities.

Table 1.80: Households' Use of Multiple Environmentally Friendly Activities¹

Environmentally Friendly Activities	Recycling / Sorting Garbage	Purchase locally produced food	Purchase eco-friendly or green products	Use of reusable household items	Production of compost materials	Use of energy efficient bulbs	Use of 'Energy Star' qualified appliances
	#	#	#	#	#	#	#
Recycling/Sorting Garbage	10,709	9,579	7,477	8,086	1,559	8,911	5,682
Purchasing locally produced food	9,579	21,336	12,542	14,429	2,162	16,821	9,144
Purchasing eco-friendly or green products	7,477	12,542	13,256	10,673	1,826	11,422	7,209
Use of reusable household items	8,086	14,429	10,673	15,912	2,036	13,279	7,858
Production of compost materials	1,559	2,162	1,826	2,036	2,301	2,070	1,470
Use of energy efficient bulbs	8,911	16,821	11,422	13,279	2,070	18,964	9,460
Use of 'Energy Star' qualified appliances	5,682	9,144	7,209	7,858	1,470	9,460	10,060

¹The diagonal boxes represent household engagement in the specific activity, other boxes represents the other environmentally friendly engagements household are doing simultaneously.

Figure 1.8P: Households Engagement in Environmental Activities

1.9 MORTALITY

In 2021, the number of persons reported as deceased during the year before 'Census Day' was 229; 54.6 percent were males, while the other 45.4 percent were females. Consistent with the population distribution, most deceased persons were from George Town district, followed by Bodden Town and West Bay. The age group of the deceased was predominantly persons aged 60 years and older, while 82.5 percent (189 of the 229 persons) of the deaths occurred in the Cayman Islands.

Table 1.9A: Number of Deceased by Sex, District, Location of death and Age Group

1.10 EMIGRATION

Of the 98 persons who emigrated from the Cayman Islands since the 2010 Census, the majority occurred within the last two years (56.1%), while another 25.5 percent left these shores more than five (5) years ago. The destination of choice for persons who emigrated was the United States of America, followed by the United Kingdom and Canada.

Figure 1.10A: Emigration by Years, Destination and Reasons

The main reasons cited for migration were education (52.0%), job opportunity (17.3%) and family reunification (10.2%).

Figure 1.10B: Main Reasons for Emigration

1.11 CRIME

As depicted in Figure 1.11A, the crime rate⁵ in the Cayman Islands stood at 24.7 crimes per 1,000 person, 15 years and older. Bodden Town's crime rate was highest at 27.1 per 1,000 persons, followed by George Town with 26.4 per 1,000. The crime rate in George Town and Bodden Town exceeded the national average. In North Side and West Bay, the crime rates stood at 23.9 and 22.7 per 1,000 persons. The lowest crime rate was in the Sister Islands, with 9.1 per 1,000 persons, while East End marginally higher.

In the twelve months leading up to the 2021 Census, victims of crime amounted to 1,428, which is 2.5 percent of the working-age population (15 + years). The age groups 25-29 to 55-59 were the primary victims of crime and accounted for 75.5 percent of individual and household crimes.

Figure 1.11A: Victims of Crime by District and Age Group

Of the 1,428 total crimes committed during the last year leading up to ‘Census Day’, victims reported 974 or 68.2 percent, to the Royal Cayman Islands Police Service (RCIPS), which implies another 31.8 percent remained unreported (see Table 1.11B) as at Census 2021. Female victims of crime report to RCIPS 70.1 percent of the time, while males reported 66.3 percent. Generally, crime was more prevalent among Caymanians with 71.5 percent, than Non-Caymanian with 63.2 percent.

⁵ Crime excluded traffic offences.

Figure 1.11B: Victims of Crime and Reported Crime by Sex and Status

1.12 AGRICULTURE AND FISHING ACTIVITY AND FOOD SECURITY

The COVID-19 pandemic raised concerns that adequate food supplies would not reach consumers as supply chains faced multiple shocks and stresses. The preservation of agrifood systems helps to ensure food security, nutrition, and people's livelihoods.

The twelve months preceding the 2021 Census show that 18.7 percent of households embraced agriculture and fishing activities. The Sister Islands' agriculture and fishing activities were the highest among the districts, with 41.9 percent household engagement. Bodden Town, East End, and North Side households engaged in agriculture and fishing ranged between 27 and 30 percent, while George Town and West Bay were the lowest. Overall, most households were engaged in only agriculture activities (47.8%), followed by only fishing with 36.8 percent.

Table 1.12A: Households in Agriculture and Fishing Activities

	Total Households	Households in Agriculture & Fishing		Agriculture only	Fishing only	Agriculture and Fishing
		#	%			
Total	29,699	5,539	18.7	2,650	2,041	848
George Town	15,331	2,005	13.1	897	890	219
West Bay	6,408	1,166	18.2	435	539	192
Bodden Town	5,478	1,498	27.3	951	329	218
North Side	726	215	29.6	103	63	49
East End	696	210	30.2	84	78	49
Sister Islands	1,060	444	41.9	180	144	120
Cayman Brac	930	388	41.7	165	111	111
Little Cayman	130	57	43.6	16	32	9

Food insecurity is the disruption of food intake or eating patterns because of a lack of money and other resources. It is essential to know that hunger and food insecurity are closely related, nevertheless distinct concepts. Hunger refers to a personal, physical sensation of discomfort, while food insecurity refers to a lack of available financial resources for food at the household level.

Food insecurity in the Cayman Islands was 2.2 percent (or 652 households). In response to the question, “*Was there ever no food to eat of any kind for any member of this household due to the lack of resources to get food for at least one day in the past four weeks,*” 652 households answered YES, and another 673 did not respond (DK/NS).

North Side and East End households had the highest level of food insecurity at 4.5 percent each. George Town had the lowest level of food insecurity with 1.8 percent, followed by West

Bay with 2.1 percent. All the other districts' food insecurity was greater than the national average of 2.2 percent.

Of the total households with food insecurity, 65.8 percent were Caymanian-headed households, while 34.2 percent were Non-Caymanian.

Figure 1.12B: Households Food Insecurity by District and Type of Household

2. ADMINISTRATIVE BACKGROUND

2.1 LEGAL MANDATE AND HISTORY

In August 2018, the Cayman Islands government approved the planning, preparation, and implementation of the 2020 Population and Housing Census. A Census Plan was completed, and the Census Advisory Committee (CAC) was launched in October 2018.

The “Census Day” was initially approved as Sunday, 11th October 2020. Despite steady progress of the CAC with census preparations, in light of the onset of the global pandemic in January 2020, the Cayman Islands government granted approval in July 2020 for the postponement of the Population and Housing Census 2020 by one year to October 2021. Some of the reasons cited for the postponement included:

- ✚ The current pandemic and residual health fears are likely to culminate in a low response rate to the Census as households may be reluctant to welcome enumerators to conduct interviews;
- ✚ The labour market indicators and population count were expected to be unstable as the year 2020 would be considered an ‘unusual year;’
- ✚ It would be challenging Logistically to train approximately 600 enumerators, field supervisors and area coordinators, given the COVID-19 protocols and the usage of personal protective equipment (PPE);
- ✚ Recruitment of field staff could be challenging as persons are less likely to work amidst the COVID-19 health risk and vulnerabilities, in particular, the aged community leaders and field workers;
- ✚ It was deemed that postponing Census 2020 would not negatively hamper the time series analysis of the data as the time interval between censuses in 1999, 2010, and now 2021 would maintain the 11 years gap. N.B: *The 2010 Census was delayed from 2009 due to fiscal austerity measures precipitated by the 2008 financial crisis;*
- ✚ Due to the current multiyear budget approval, the postponement of the 2020 Census was unaffected financially as the approved budget would carry over to 2021; and
- ✚ Other countries with scheduled 2020 censuses delayed census enumeration because of the global pandemic.

The census preparation culminated in the approval by the Cabinet in Council for the drafting of the Census Order and Census Regulations. The Census Order mandated the Economics and Statistics Office (ESO) to conduct the 2021 Census, which shall be taken on “Census Day.” The Census Day, or the reference day for counting the population, is 10th October, 2021. The Census Regulations comprised a list of particulars or questions in the Census questionnaire.

The 2021 Census is the latest in the census history of the Cayman Islands, which started in 1802. Since then, censuses were done in 1891, 1911, 1921, 1934, 1943, 1960, 1970, 1979, 1989, 1999 and 2010.

The 2021 Census also complies with the United Nations recommendation that all countries should carry out a population and housing census every tenth year and that the 2020 round of censuses should be carried out during the period 2015-2024.

2.2 CENSUS OBJECTIVES

The main objective of conducting the 2021 Census is to provide statistics on the population's demographic, social and economic characteristics and household and housing characteristics. The need for such information can never be overemphasised, given the dynamism of the country's population. This is a primary consideration in planning and providing public services during the ensuing decade.

In addition, the 2021 Census also has the following main objectives:

- a) The population and housing census in the Cayman Islands in October 2021 shall provide statistics on the population, including demographic, social, and economic characteristics and housing information. Given the dynamism of the country's population, the need for such information can never be overemphasised, which is a primary consideration in the efficient planning and running of public services during the ensuing decade.

It should be stressed that even though the Census is critical, it shall be regarded as part of a national statistical system that includes household surveys and statistics from administrative registers. This means that not all statistical information about the population needs to be collected in the Census, as other data sources are available. Hence, prioritisation criteria were established, in consultation with the Census Advisory Committee, to determine the critical set of data that will be collected through the Census.

- b) In addition to estimating the total count of residents in the Cayman Islands and their demographic, social, economic and housing characteristics, the Census will also involve building a registry of households of good quality. This will enable the ESO to improve its sample surveys after the Census, such as the Labour Force Survey conducted at least twice a year or the Household Budget Survey, undertaken every 3 to 5 years.

The Census will also, in other ways, contribute to the capacity building of the ESO, such as IT infrastructure and staff training. Thus, a census is also a capacity-building exercise.

- c) The population census is a unique opportunity to raise awareness of the importance of official statistics among the residents of the Cayman Islands. Official statistics are critical in providing helpful information for decision-making within the public and business sectors and knowledge-based debates as part of the democratic process.

Official statistics are expected to capture the essential information needs of any society. They should deliver quantitative information concerning development trends. They should also give a comprehensive picture of the society and thus cover all sectors and all aspects and conditions.

Statistical results should be distributed in easy access and understand forms to be used by all interested parties in society. Hence, another objective of census management is to disseminate the Census results in a user-friendly manner.

The Economics and Statistics Office aims to produce high-quality data from the 2021 Census which is relevant, timely, and accurate. Extensive efforts were placed on the census form design, data collection, and data processing procedures to achieve this outcome.

2.3 BASIC APPROACH

A population census can be done in two different ways. One method is to count the population who usually lives in the country (“residents”); this is called a *de jure* census. The other method is to count all the people present in the country at the census time; this is called a *de facto* census. The new UN manual calls the present population count (corresponding to the *de facto* Census) the usually resident population (corresponding to *de jure*).

For the Cayman Islands, the aim was to count the usually resident population, i.e. residents or persons staying in the Cayman Islands for more than six months or intending to stay for at least six months.

The main argument for the usual resident population count is that this offers better information on the demand for services, households, and internal migration for planning and policy purposes. In the 1999 and 2010 censuses, the main results concern the resident population. Hence, comparability with previous censuses is ensured.

The scope of the census questions was similar to the 1999 and 2010 censuses as follows: (a) demographic characteristics; (b) socio-economic characteristics, including core labour force questions; and (c) housing characteristics. Some questions under each subject area in Census 2010 were revised, while new ones were relevant to the primary census data users. These questions were tested in a Pilot Census in October 2019 and modified based on the pilot results.

2.4 PREPARATION AND CONSULTATION PROCESS

A consultation process aided the preparation of the Census Regulations and the census questionnaire through the Census Advisory Committee (CAC). The CAC was convened in August 2018 to advise the prioritisation and relevance of questions to be included in the Census questionnaire and other key areas. In addition to ESO, it comprised senior representatives from the Departments of Planning; Education; Children and Family Services; Labour and Employment Relations; the Ministry of Finance, Tourism and Development; the Ministry of District Administration, Works and Gender Affairs; Human Services; National Council for Persons with Disability; National Roads Authority; Government Information Services; Cabinet Office and the District Commissioner for the Sister Islands. The private sector was also represented on the Committee through the Chamber of Commerce.

Other Departments within the Cayman Islands Government assisted the ESO and CAC, particularly the Government Information Services, regarding publicity and promotion and the Lands and Survey and the Planning Departments regarding the preparation of enumeration area maps. The Legal Drafting Department was extensively involved in preparing amendments to the Statistics Act (2016 Revision) to strengthen the safety and confidentiality of the Census data collection process, the Census Order and the Census Regulations.

The Census Advisory Committee has established relevant sub-committees that meet regularly to keep the preparation on schedule. These sub-committees were: Mapping, Logistics and Training, and Publicity.

Mapping – the sub-committee reviewed the Census 2010 enumeration area (EA) maps for all districts vis-à-vis the updated ESO's Household Registry. An EA consisted of approximately 100 households. The Islands' population has increased, and household dwellings in some or all EAs also increased, which required the re-drawing of EA maps.

Logistics and training – the sub-committee primarily assisted in recruiting census workers by serving as speakers at district meetings. Members were given the option to be trained as trainers and serve as census trainers.

Publicity – the sub-committee members led in the preparation of the publicity and advocacy plan with three main messages:

- The Census is coming;
- The Census is necessary and useful; and
- The Census is safe (confidentiality).

The 2021 Census was widely publicised, mainly using billboards, census jingles, social media videos and banners, fliers and census spokespersons.

2.5 FIELDWORK AND DATA PROCESSING

Data collection for the 2021 Census was conducted from 10th October 2021 to 25th January 2022. The fieldwork comprised completing visitation records (VRs) and interviewing households. The VRs recorded the number of buildings, dwelling units and households in each enumeration area and the number of members in each household by sex. Household interviews were conducted using the census questionnaire (see Appendix 1).

There were 351 enumeration areas across the six (6) districts of the Cayman Islands, with each enumeration area consisting of approximately 100 households.

Fieldwork was managed by the ESO and involved a team of 354 enumerators, 68 field supervisors and 11 area coordinators. Area coordinators were assigned to each district, with George Town having five (5) while West Bay and Bodden Town had two (2) each. A field supervisor was assigned to an average of five (5) enumerators, while an enumerator was assigned one (1) enumeration area with few exceptions.

Each census worker undertook training sessions and evaluations before signing a service agreement with the ESO with strict confidentiality clauses. The one-week training sessions for area coordinators were conducted in the first week of August 2021. The enumerators had 10-day training sessions conducted for all districts beginning in the second week of August 2021. Field supervisors were selected from those who attended the enumerators' training and had two additional training sessions. All training sessions were based on the approved Census Manuals.

Census enumerators visited approximately 42,130 addresses during the enumeration period. Of these, 3,946 units were vacant; 434 units with verified (confirmed by neighbours) no contact after at least four attempts were made by enumerators, and 2,349 were temporary second homes/short-term rentals. The population count in this final report was tabulated from the responses of 29,699 households.

The summation of fully and partially completed household questionnaires as a ratio of total in-scope households (fully and partially completed, refusals and verified no contacts) resulted in a response rate of 96.7 percent for Census 2021.

After completing fieldwork, the significant activities comprised editing, coding, data capture and processing. Trained ESO staff and census workers worked on industry coding using the International Standard Industrial Classification (Revision 4). For occupations, a 6-digits Cayman Islands Classification of Occupations was used for a more detailed classification of occupations.

Census 2021 was conducted using computer-assisted personal interviewing (CAPI)⁶. This was used to minimise human errors and improve the accuracy of data capture. These

⁶ A customized data capture software was designed by consultant Howard Hamilton.

methods resulted in significant reductions in processing time and improved the reliability and timeliness of census results. Compared to traditional practices related to monitoring questionnaires, data entry, part of the computer editing and coding, and transmission of questionnaires are undertaken during the enumeration. This resulted in significant efficiencies and drastically reduced the time lag between data collection and analysis. CAPI electronic questionnaires allowed checkboxes for quickly selecting responses, pre-programmed automatic skips, and consistency checking during the interview. In addition, it enhanced information security and facilitated efficient data processing, timely release of results and ease of electronic data storage. Finally, the technology allowed easy data transmission between enumerators, field supervisors, area coordinators and the ESO.

Further data processing was also conducted in-house by ESO staff using Microsoft Excel and Statistical Package for Social Sciences (SPSS).

Figure 2.5A: Census Fieldwork Process

2.6 CENSUS EXPENDITURE

The Cabinet and the Legislative Assembly approved the census budgetary appropriation as part of the Ministry of Finance and Economic Development budget. The total budgeted expenditure for all census activities was estimated at \$2,231,384, of which approximately 74 percent was for fieldwork and post-field work data processing. The rest of the expenses were for training, supplies, logistics and publicity. The estimated budget was based on 28,000 households; therefore, the estimated cost per covered household was \$79.69. The actual expenditure outlay for the census was \$2,196,325, and with the household count at 29,699, the actual cost per covered household was \$73.95, of which approximately 78 percent was for fieldwork and post-field work data processing.

3. KEY DEFINITIONS, CONCEPTS AND EXPLANATORY NOTES

3.1 KEY DEFINITIONS AND CONCEPTS

Disability

Generally, a disability is an inability or great difficulty performing one or more major life activities in the person's current social environment because of impairment, e.g., missing, damaged or weakened body part or function.

Disability is not a specific medical diagnosis such as spinal cord injury, cerebral palsy, or intellectual difficulties. While this information is often important in a medical context, it is normally not what arises when you come into contact with someone with a disability. It is also important to recognise that, by changing the environment, the person can be facilitated to increase their performance or, on the contrary, impeded from activities that they could perform in a more enabling environment.

Not everyone that wears spectacles (glasses) has a sight impairment. Those with a limb in a cast due to a broken bone are not classified as having upper or lower limb impairment if the injury does not leave them disabled. Those with chronic depression and other forms of mental disorder are classified as having a mental illness.

Employed

An 'employed' person is one who is 15 years or older and engaged in some form of economic activity regardless of the type of work. This could be an active partner in a business, some type of self-employment, or working a couple of hours per week for someone.

Any economic activity, even for one hour during the Reference Week (week proceeding 10th October 2021), is interpreted as work.

Persons who work in their own homes doing household chores are not considered 'employed', nor are those who perform volunteer work. However, paid apprenticeships or internships are classified as 'employed'.

Also included as employed persons are those who: (a) worked at anything for wages or salary, at time rates, at piece rates, on commission, for tips, board and lodging or any other type of payment in kind (the employee); (b) worked for profit or fees in their own business or on their farm (the self-employed); (c) worked without money, wages or salary, at a task (other than housework) which contributed to the operation of farm or business owned and operated for profit in most cases by some member of their family-related by blood or marriage (the unpaid family worker); (d) spent some time in the operation of a business or profession even though no sales were made or professional services rendered, such as doctor or lawyer spending time in their office waiting for clients.

Excluded from the employed are those who: (a) worked without money or pay for a relative or other person at tasks which did not contribute to the operation of a farm or of a business (e.g. housework, gardening, cutting the lawn, other odd jobs around the house or yard); (b) worked without pay assisting a relative or friend in their duties as an employee (e.g. accompanying a truck driver); or (c) worked without pay, either in cash or in-kind, as a VOLUNTEER WORKER for service organisation activities such as The Red Cross.

Headcount population

This is based on all residents, including those who were unavailable to be interviewed but were confirmed by neighbours, property managers or landlords to be residents for at least 6 months.

The population total in most of the 2021 Census tables is not necessarily equal to the headcount population as some residents may have been counted but provided no other information.

Head of household

The only criterion that is used to define the head of household is that the person should be a responsible adult. A household member is designated as the head primarily to establish the relationship of household members. Every household must have a member designated as head for the Census. The father or mother is usually designated the head of a single-family household. It does not matter which one is designated the head. In a one-person household, that person is the head. In a household where members are unrelated, the head is the person the other members designated as the head of the household for the Census. The person running a guesthouse or similar establishment where payment is made for boarding and lodging is considered the head of household.

Household

A household comprises either one person living alone or a group of persons (not necessarily related) living at the same address and with common housekeeping, i.e., sharing at least one meal a day and sharing living arrangements.

In most cases, the dwelling unit will also be the household. There are cases, however, where this is not so. In the Cayman Islands, rooms in dwelling units are sometimes rented individually by the 'owner.' While these persons may share a common living area, each room is treated as a separate household.

Household members

The basic rule is to include everyone in the household (defined above) who has been living in the Cayman Islands for at least six months before the week ending 10th October 2021 or INTENDS to live here for six months or more. All persons who satisfy this criterion are included as household members regardless of immigration status or age.

Also included are:

- family members studying abroad who have the intention of returning to their home in the Cayman Islands;
- family members seeking medical attention abroad who have the intention of returning to their home in the Cayman Islands;
- family members working on another island, in another country or at sea for less than six months if the present address is considered their "home";
- away on vacation or business for less than six months;
- domestics, boarders or lodgers living in the Cayman Islands for at least six months; or
- "visitors" from elsewhere in the Cayman Islands, who currently consider the address their "home" for at least six months (e.g. relatives).

Persons excluded from the household count were those who were:

- family members working and living away from the address and consider elsewhere their "home";
- separated spouses visiting only occasionally who have a "home" elsewhere;
- students at school overseas if they do not intend to return to live in the Cayman Islands.;
- persons in an institution (e.g. prison) for the past six months or likely to remain in an institution for at least 6 months;
- daily helpers and domestics NOT living in (these individuals are a separate household unless they live in an "annex" to the main dwelling AND share at least one meal a day); or
- visitors not intending to live at least six months in the Cayman Islands.

Institution

Residential homes for particular groups of people, such as prisons, infirmaries, mental asylums, dormitories etc., are referred to as institutions. Persons who have resided at an institution for six or more months will be counted as a part of the institutional population.

Labour Force

The labour force is comprised of all persons aged 15 years or over who were engaged in any form of economic activity for at least one hour during the week proceeding 10th October 2021 or who were seeking, willing and available/able to be engaged in producing economic goods and services. Also included are all those persons who were temporarily absent from work during the week proceeding 10th October 2021. Hence, the labour force is made up of all those persons who either had jobs (the Employed) or those who did not have jobs but were seeking, willing and available to work (the Unemployed).

Marital and Union Status

Marital status refers to the legal marital status, which can only be one of the five choices: married, no longer married due to divorce, separation from a spouse, or death of a spouse;

or never married. This is distinct from union status, which considers living arrangements with a spouse or partner regardless of marital status.

A legally married person separated from their spouse and was granted legal separation by the Courts is coded as 'Legally separated.'

A person who is legally married, but is separated from their spouse and has taken no legal action to separate, is coded as 'Legally married.'

A person who has never been married but is living in a common-law union with a partner, no matter their age or the number of years living with the same partner, is marked as 'never married.'

Union status refers to spouses' or partners' living arrangements. Therefore, a legally married person could be living away from a spouse.

To be in a 'visiting partner' union, the partners must have a child together that was born between October 2020 and September 2021. All 'girlfriend/boyfriend' relationships are considered 'not in union' if the criteria for a visiting partner are not met.

Resident

This refers to any person staying in the Cayman Islands or intending to stay for at least six months. This definition of "resident" in the census context has no legal implication whatsoever. Citizenship or status is not part of the definition, and only the length of stay of a person defines the Census resident population.

Sex ratio

This refers to the number of females per 100 males.

Status

A resident is either a Caymanian or a Non-Caymanian.

Caymanians are by birth or by status. Persons who have naturalisation but are not Caymanians by status are considered Non-Caymanians.

Non-Caymanians are comprised of residents with work permits or government contracts and their spouses and children; permanent residents with and without rights to work; persons with student visas; asylum holders/seekers; and other categories. Broadly, anyone who is not Caymanian.

Status ratio

This refers to the number of Non-Caymanians per 100 Caymanians.

Tabular population

This refers to the total number of residents who were interviewed fully or partially and the information provided by the head of household/responsible adult on behalf of other household members.

This is not necessarily equal to the headcount population. Some residents were counted based on information from neighbours or landlords but were not interviewed and therefore excluded from the tabular population.

3.2 EXPLANATORY NOTES TO THE CENSUS TABLES

The attached 2021 Census tables contain information from households who were interviewed during the Census period from 10th October 2021 to 25th January 2022.

The total population in most of the tables do not add up to the total non-institutional headcount population of 71,105. Based on information from neighbours or landlords, some residences were confirmed to be occupied by households of usual residents (who have stayed on the Island for at least six months and have intentions to stay on the Island). However, since enumerators could not conduct interviews with these residents, despite at least four attempts, the tabular population accounts for a total of 68,811.

Some tables present multiple responses (disability and illness) or dual responses (citizenship); hence they sum up to more than the population count.

All figures are rounded to the nearest decimal place. DK/NS are responses “Don’t Know/Not Stated.”

To better understand the information, you may refer to the census questionnaire attached as Appendix 1.

CENSUS 2021 ENUMERATORS AND SUPERVISORS

For work well done, we at the Ministry of Finance and Economic Development appreciated the effort, dedication and tenacity demonstrated by all Census 2021 workers. You persevered despite competing demands and multiple social and health risks, including the pandemic.

Thank you for a job well done!

Section 8 - Housing

To be completed by the Head of the household or a responsible adult.

8.1 Which of the following best describes the ownership of this dwelling?

- 1 Owned without mortgage
- 2 Owned with mortgage
- 3 Rented - Furnished
- 4 Rented - Unfurnished
- 5 Rent-free provided by employer, relative or friend
- 6 Subsidized rent provided by employer, relative or friend
- 7 Other (please specify) _____
- 99 DK/NS

8.2 What type of dwelling does this household occupy?

- 1 Detached house
- 2 Semi-detached house
- 3 Duplex
- 4 Apartment
- 5 Condominium/townhouse
- 6 Studio
- 7 One-room
- 8 Combined business/dwelling _____
- 9 Boat/yacht
- 99 DK/NS
- 10 Other (please specify) _____

8.3 How many rooms does this household have available for its use?

8.4 Number of bedrooms

8.5 Number of bathrooms

8.6 Does this household share a bathroom with another household? 1 Yes 2 No 99 DK/NS

8.7 What type of sewerage system does this household have?

- 1 Mains (West Bay Rd. Sewage Scheme)
- 2 Sewerage Treatment Plant
- 3 Septic tank or deep well
- 4 Cesspool
- 5 Outhouse/Pit latrine
- 6 Other (please specify) _____
- 99 DK/NS

8.8 What is the MAIN source of water for this household?

- 1 Mains ("City water" or "desalinated")
- 2 Cistern (rain or truck)
- 3 Well
- 4 Other (please specify) _____
- 99 DK/NS

8.9 Does this household use bottled water as its MAIN source for drinking water? 1 Yes 2 No 99 DK/NS

8.10 Does this household share a kitchen with another household? 1 Yes 2 No 99 DK/NS

8.11 What type of fuel does this household use MOST for cooking?

- 1 Electricity
- 2 Gas/propane
- 3 Kerosene
- 4 Wood/charcoal
- 5 Other (please specify) _____
- 99 DK/NS

26659

Section 8 - Housing

To be completed by the Head of the household or a responsible adult.

8.12 What does this household use MOST for lighting?

- 1 Electricity - CUC, Brac Power
2 Electricity - private generator
3 Gas/propane
4 Solar energy
5 Kerosene lamp
6 Other (please specify)
99 DK/NS

8.13 Does this household produce any form of renewable energy for its own use?

- 1 Yes, Solar Cells
2 Yes, Wind Turbines
3 Yes, Solar Water Heating Systems
4 Yes, Ground Source (Geothermal) Heat Pumps
5 Yes, Other forms of energy (please specify)
6 Don't produce any renewable energy
99 DK/NS

8.14 Does this household produce any form of renewable energy for sale to the National Electricity grid?

- 1 Yes, Solar
2 Yes, Wind Turbines
3 Yes, Ground Source (Geothermal) Heat Pumps
4 Yes, Biomass (energy from plants)
5 Yes, Other forms of energy (please specify)
6 Don't produce any renewable energy for sale
99 DK/NS

8.15 Does this household have the following?

- 1. Internet at home
2. Cable/Satellite
3. Water Heater
4. Air condition
5. Housing Structure Insurance

8.16 How many of the following does this household own?

- 1. Radios
3. Electric Generators
5. Motorcycles/Moped
7. Tablets/e-readers
9. Mobile phones
2. Television sets
4. Fixed line telephones
6. Computers (Desktops & Laptops)
8. Motor Vehicles
10. Watercraft (pleasure boats, jet ski, etc.)

8.17 How many household employees does this household employ?

Please provide the number of persons by primary task. If NONE, write zero (0)

- 1. Domestic Helper
3. Nanny (Children)
2. Gardener
4. Care Giver (Elderly/Sick)

8.18 Does this household engage in any of the following environmentally friendly activities?

Multiple Response Available

- 1. Recycling/Sorting Garbage
2. Purchasing locally produced food
3. Purchasing eco-friendly or "green" products
4. The use of reusable household items
5. The production of compost materials
6. The use of energy efficient bulbs
7. The use of Energy Star qualified appliances
8. Does not engage in any environmentally friendly activities
9. DK/NS
